

# Deben Yacht Club

## **Environmental Policy Statement**

The Deben Yacht Club is committed to minimising the impact of its activities on the environment.

This Policy Statement sets out how we will work towards achieving our environmental objectives.

1. Where possible we will identify opportunities to adopt best practice over and above the minimum legislative requirements
2. We will minimise the risk of pollution to protect the local environment
3. We will minimise the use of electricity, fuel and water in all of our activities
4. We will minimise the creation of waste, by using a hierarchy of reduce, reuse, recycle and responsible disposal
5. We will promote relevant local environmental information to our members such as the location of voluntary no anchor zones, sensitive habitats/species
6. We will publicise our environmental commitment and promote sustainability amongst our members and visitors on our website and club notice boards
7. We will measure our progress and review this policy on a regular basis

Adopted by the DYC Committee on 10 April 2024 on behalf of all members.
